# OUR PRODUCT

## TARGET

AI Performance search for new trends.

- By analyzing the most popular words and phrases on search engines,
- it can quickly detect new trends and identify products that would fit perfectly with them.

## ADVERTISEMENT

Once AI Performance has identified a trend and a suitable product, it will automatically create an advertisement.

# HOW IT WORKS

**Grow your budget Marketing**

**Cashback will be credited to your account balance:**

- 0.85% Every Day
- Lifetime Earning
- 7 days a week

**Reinvest your cashback or Withdraw your Funds**

**Share your Referral Link to your friends and get a percentage of their earning**

# PROCESS

**AI PERFORMANCE** uses the cashback system, for each sale made with the help of the robot, we get some cashback and then you receive a part of the profit.

Withdrawals Processing Time: Up to 24 Hours

# FAQ

## Q. I MADE A DEPOSIT THROUGH CRYPTO BUT THE FUNDS ARE NOT APPEARING ON MY DASHBOARD WHY?

A. When making a deposit using cryptocurrency, you must send the exact amount without taking into account the fees that must be paid on your side.

CoinbaseCommerce will detect the payment, but if there is a significant difference between what you were supposed to pay and what CoinbaseCommerce received, a dispute will be opened for overpayment or underpayment. To avoid this problem, please send the exact amount.

If you use a decentralized wallet such as Metamask, you will never have this kind of problem because the transaction sent is automatically calculated.

However, the blockchain is transparent, so don't panic if it happens to you. Send us an email with a screenshot of the transaction, including the transaction hash, as well as your email registered on AI Performance. We will manually credit your funds and close the dispute with CoinbaseCommerce.

## Q. WHERE ARE THE PROOFS OF THE CASHBACK GENERATED BY AI PERFORMANCE?

A. We will post weekly results on our Telegram.

We haven't integrated the cashback system directly into the site yet for technical reasons. This kind of complex site have to be tested and re-tested, especially since we have hundreds of partnerships with various stores and need to integrate each one to reflect the company's benefits. It is something we are working on and should gradually take shape.

## Q. WHY THE CASHBACK PERCENTAGE IS SET AT 0.85% PER DAY?

A. AI Performance bot generate more than 0.85% daily, we chose this exact percentage after calculating the lowest average profitability of our robot during tumultuous periods. We have no plan to increase this percentage it in the future; it will remain at this level because we believe it is the most suitable for your security.

## Q. WHO IS THE CEO OF THE COMPANY?

A. We are a team of developers and currently do not have a suitable, trusted marketer to manage this role. It should be understood that the current team is closely-knit, and issues often arise from this side in most of the company. However, we are committed to addressing this issue as soon as possible.

As outlined in our roadmap, we will make incentives, and leaders who know us well are already active on different countries.

## Q. HOW CAN I TRUST AI PERFORMANCE, WHICH IS A CENTRALIZED ENTITY?

A. We have made the decision to launch a DAO as quickly as possible, the community would be able to take decisions about the management of AI Performance.

DAO stands for "Decentralized Autonomous Organization". In other words, you will be able to vote on various topics and have a say in the decisions of AI Performance.

For example, we can submit proposals regarding the management of the company's treasury (investing a portion) or select a trusted community member to secure the funds in a multisig wallet etc..

We will implement this as soon as possible (see roadmap).

## Q. WHAT ACTION DO I HAVE TO PERFORM ON MY DASHBOARD?

A. Once you have deposited funds, go to the "Invest" section, click on "Invest Now". Every day, you will receive 0.85% cashback. You can decide to reinvest it to increase your marketing budget or withdraw the funds.

## Q. HOW YOU ENSURE THE SAFETY OF OUR DEPOSITED FUNDS?

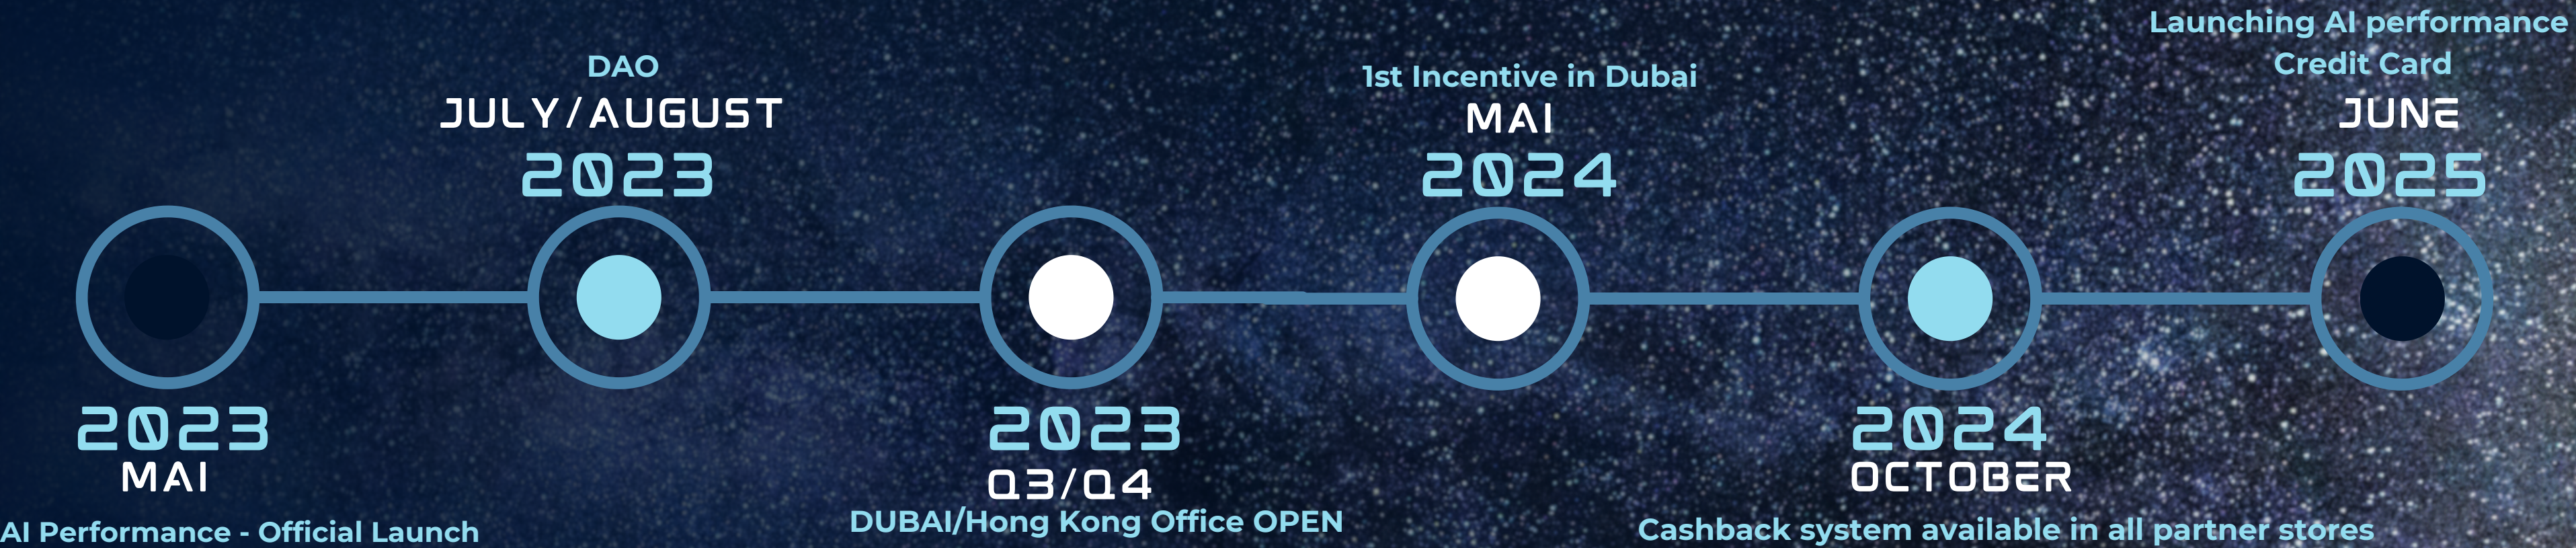

A. Any investment is always subject to risk. Despite the good profitability of AI Performance with a strategy that has been backtested over 6 months, we have anticipated the worst-case scenario and we strive to minimize your risks by backing your funds with our treasury.

In fact, 20% of the profits generated by AI Performance will be sent to the treasury, we will publish the public address of the treasury.

These funds will be used in case of technical problems and to serve as a backup for your daily cashback returns.
